BILL CAMPBELL  
MAYOR

55 TRINITY AVENUE, S.W.  
ATLANTA, GEORGIA 30335-0300  
(404) 330-6100

February 19, 2001

President Robert Pitts &  
Members of Atlanta City Council  
55 Trinity Avenue, SW  
Atlanta, Georgia 30335

**Re: Appointment to the Keep Atlanta Beautiful Board**

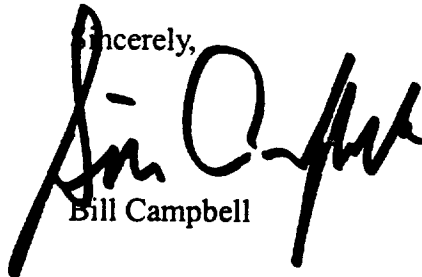

Dear President Pitts and Members of Council:

It is a pleasure for me to appoint **Mr. Alexander F. Levy** to serve as a member of the **Keep Atlanta Beautiful Board** as the **Post 2 At-Large representative**. This appointment is for a term of two (2) years, scheduled to begin on the date of Council confirmation.

I am certain that Mr. Levy will serve the City of Atlanta with distinction.

I respectfully urge confirmation of this appointment.

Sincerely,

Bill Campbell

2000 Jane Hurt Yarn Volunteer Award, The Nature Conservancy of Georgia  
Ad hoc Committee for Down-listing of Federally protected Large-Flowered Skullcap  
Past President, Wilderness Network of Georgia (Social Organization)

**EXPERIENCE:**

An Atlanta-native, even before Mr. Levy graduated in 1990 with a Bachelor in Landscape Architecture from the University of Georgia, his feet were on a path that actually started by volunteering for The Nature Conservancy's Georgia Chapter. Today, Mr. Levy serves the Federal Highway Administration - Southern Resource Center as Environmental Protection Specialist with regional expertise in wetlands, water quality and general biology subjects. Mr. Levy has over 10 years of professional experience performing wetland determinations, protected species investigations and general ecology studies for transportation impact planning, permitting, and NEPA documentation for several southeastern state DOTs. Mr. Levy's broad project experience includes conducting general habitat assessments, formal and informal Section 7 Endangered Species Act Consultations, Section 401 and 404 Clean Water Act coordination, and wetland and stream impact mitigation for numerous southeastern utility, site development, and transportation initiatives throughout the southeastern United States.

Prior to joining FHWA Mr. Levy served as an Environmental Scientist for Greenberg Farrow Architecture Engineering Development, where he was responsible for delineation of wetlands, development of wetland permit applications and mitigation plans, and conducting biological assessments for threatened and endangered species in association with site development for a major home improvement retailer. He was also involved in frequent consultation with regional and district offices of the U.S. Army Corps of Engineers and the U.S. Fish and Wildlife Service, as well as various state and local regulatory agencies, in seeking to achieve authorization for project implementation.

Prior to his service at Greenberg Farrow, Mr. Levy was a founding associate with similar duties at Edwards-Pitman Environmental, Inc., a company in which he served as Senior Ecologist, as well as Treasurer on the Board of Directors. While with Edwards-Pitman, Mr. Levy managed several projects in addition to conducting field surveys and preparing environmental documents for private site-development as well as public transportation and utilities projects. In addition to authoring much of the small business' marketing literature, billing codes, and proprietary report formats, Mr. Levy also contributed his skills from landscape architecture to developing illustrative plans and sections for a variety of transportation and site projects.
